

AirSculpt® Technologies, Inc. Announces Plans to Open London Location in 2023

December 13, 2022

MIAMI BEACH, Fla., Dec. 13, 2022 (GLOBE NEWSWIRE) -- AirSculpt® Technologies, Inc., ("AirSculpt") (NASDAQ: AIRS) an industry leader and provider of premium body contouring procedures, today announced the opening of its first overseas Elite Body Sculpture location in London, England in the first half of 2023. AirSculpt now expects to open five office locations in 2023.

Elite Body Sculpture's London Location Opening 2023

AirSculpt® is a next-generation body contouring treatment designed to optimize both comfort and precision, available exclusively at Elite Body Sculpture offices. The minimally invasive procedure removes fat and tightens skin while sculpting targeted areas of the body, allowing for quick healing with minimal bruising, tighter skin, and precise results.

"We are delighted to share that we will be opening our first overseas location during the first half of 2023," said Dr. Aaron Rollins, Founder and Chief Executive Officer at AirSculpt® Technologies. "Our 51 Harley Street location will deliver, what we believe to be, the best solution to permanent body fat reduction in a luxury experience." Rollins continued, "And we are thrilled to announce that Rana Das-Gupta has joined us as Medical Director. His experience and expertise within not only plastic surgery, but body fat reduction is impressive, and he will be an important asset to the team. We look forward to introducing our other surgeons in the coming weeks."

Rana Das-Gupta is a well-established Consultant Plastic Surgeon based in England. He qualified from The London Hospital Medical College (University of London) and trained in General Surgery and Plastic Surgery predominantly in London teaching hospitals. He carried out a number of fellowships in the UK and Scandinavia before taking up a substantive post as an NHS Consultant Plastic Surgeon in 2004. Since that time, in parallel to a wide range of reconstructive surgery, he has carried out a full range of cosmetic surgery procedures across the field.
