

AirSculpt Technologies Announces Fourth Quarter 2022 Results and Provides 2023 Guidance

March 10, 2023

MIAMI BEACH, Fla., March 10, 2023 (GLOBE NEWSWIRE) -- AirSculpt Technologies, Inc. (NASDAQ:AIRS)("AirSculpt" or the "Company"), a national provider of premium body contouring procedures, today announced results for the fourth quarter and full year ended December 31, 2022.

- Fourth quarter cases increased 15.7% over the prior year; full year increase of 18.2%
- Fourth quarter revenue increased 8.4% over the prior year; full year increase of 26.6%
- Diluted loss per share for the full year of \$(0.26)
- Diluted adjusted net income per share for the full year of \$0.37
- Fourth quarter cash flow from operating activities of \$6.6 million; full year of \$24.4 million
- Opened first international center in Toronto; confirming five planned openings in 2023

"We continue to see strong demand for AirSculpt, which was evidenced by our almost 16% increase in cases over the prior year quarter," said Dr. Aaron Rollins, Executive Chairman of the Board of AirSculpt Technologies. "Our pipeline for adding new centers is robust and we look forward to entering five new markets in 2023, which will include our second international location. I'm also excited about the recently announced addition of Todd Magazine to our executive management team and I look forward to working closely with him."

Todd Magazine, Chief Executive Officer of AirSculpt Technologies, stated, "I am excited about working with Dr. Rollins and the team to build upon AirSculpt's strong foundation of success. There is a tremendous opportunity to increase growth by leveraging AirSculpt's proprietary technology and premium experience, as well as by building awareness of the brand. I look forward to building on past achievements by delivering continued revenue growth as well as enhancing our profitability through margin expansion to provide further value to our shareholders."

Fourth Quarter 2022 Results

Case volume was 3,337 for the fourth quarter of 2022, representing growth of 15.7% over the prior year period case volume of 2,885. Revenue for the fourth quarter of 2022 increased by 8.4% to \$40.7 million from \$37.6 million in the prior year period. Net loss for the quarter was \$(7.2) million and was impacted by a \$0.6 million increase in equity-based compensation compared to the prior year period and an approximately \$0.9 million loss on debt extinguishment which did not exist in the prior year period. The Company's adjusted EBITDA for the quarter was \$9.0 million compared to \$10.2 million for the prior year period.

Full Year 2022 Results

Case volume was 13,063 for the full year 2022, representing growth of 18.2% over the prior year case volume of 11,050. Forward-Looking Statements

This press release contains forward-looking statements. In some cases, you can identify these statements by forward-looking words such as "may," "might," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue," the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties, and assumptions about us, may include projections of our future financial performance, our anticipated growth strategies, and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance, or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements, including those factors discussed in the section titled "Risk Factors" in our Annual Report on Form 10-K.

Our future results could be affected by a variety of other factors, including, but not limited to, failure to open and operate new centers in a timely and cost-effective manner; inability to open new centers due to rising interest rates and increased operating expenses due to rising inflation; shortages or quality control issues with third-party manufacturers or suppliers; competition for surgeons; litigation or medical malpractice claims; inability to protect the confidentiality of our proprietary information; changes in the laws governing the corporate practice of medicine or fee-splitting; changes in the regulatory, economic and other conditions of the states and jurisdictions where our facilities are located; and business disruption or other losses from war, pandemic, terrorist acts or political unrest.

The risk factors discussed in "Risk Factors" in our Annual Report on Form 10-K could cause our results to differ materially from those expressed in the forward-looking statements made in this press release.

There also may be other risks that are currently unknown to us or that we are unable to predict at this time.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. Forward-looking statements speak only as of the date they were made, and we are under no duty to update any of these forward-looking statements after the date of this press release to conform our prior statements to actual results or revised expectations.

Use of Non-GAAP Financial Measures

The Company reports financial results in accordance with generally accepted accounting principles in the United States ("GAAP"), however, the Company believes the evaluation of ongoing operating results may be enhanced by a presentation of Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income and Adjusted Net Income per Share, which are non-GAAP financial measures. Although the Company provides guidance for adjusted EBITDA, it is not able to provide guidance for net income, the most directly comparable GAAP measure. Certain elements of the composition of net income, including equity-based compensation, are not predictable, making it impractical for us to provide guidance on net income or to reconcile our adjusted EBITDA guidance to net income without unreasonable efforts. For the same reasons, the Company is unable to address the probable significance of the unavailable information regarding net income, which could be material to future results.

These non-GAAP financial measures are not intended to replace financial performance measures determined in accordance with GAAP. Rather, they are presented as supplemental measures of the Company's performance that management believes may enhance the evaluation of the Company's ongoing operating results. These non-GAAP financial measures are not presented in accordance with GAAP, and the Company's computation of these non-GAAP financial measures may vary from similar measures used by other companies. These measures have limitations as an analytical tool and should not be considered in isolation or as a substitute or alternative to revenue, net income, operating income, cash flows from operating activities, total indebtedness or any other measures of operating performance, liquidity or indebtedness derived in accordance with GAAP.

We define same-center facilities and procedure rooms as facilities and procedure rooms that have been owned or operated since January 1, 2021.

AirSculpt Technologies, Inc. and Subsidiaries
Reconciliation of Non-GAAP Financial Measures
(Dollars in thousands)

We report our financial results in accordance with GAAP, however, management believes the evaluation of our ongoing operating results may be enhanced by a presentation of Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income and Adjusted Net Income per Share, which are non-GAAP financial measures.

We define Adjusted EBITDA as net income/(loss) excluding depreciation and amortization, net interest expense, income tax expense/(benefit), loss on debt modification, sponsor management fee, pre-opening de novo and relocation costs, restructuring and related severance costs, IPO related costs, (gain)/loss on disposal of long-lived assets, and equity-based compensation.

We define Adjusted Net Income as net income/(loss) excluding loss on debt modification, sponsor management fee, pre-opening de novo and relocation costs, restructuring and related severance costs, IPO related costs, (gain)/loss on disposal of long-lived assets, and equity-based compensation.

We include Adjusted EBITDA and Adjusted Net Income because they are important measures on which our management assesses and believes investors should assess our operating performance. We consider Adjusted EBITDA and Adjusted Net Income to be an important measure because they help illustrate underlying trends in our business and our historical operating performance on a more consistent basis. Adjusted EBITDA has limitations as an analytical tool including: (i) Adjusted EBITDA does not include results from equity-based compensation and (ii) Adjusted EBITDA does not reflect interest expense on our debt or the cash requirements necessary to service interest or principal payments. Adjusted Net Income has limitations as an analytical tool because it does not include results from equity-based compensation.

We define Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of revenue. We define Adjusted Net Income per Share as Adjusted Net Income divided by weighted average basic and diluted shares. We included Adjusted EBITDA Margin and Adjusted Net Income per Share because they are important measures on which our management assesses and believes investors should assess our operating performance. We consider Adjusted EBITDA Margin and Adjusted Net Income per Share to be important measures because they help illustrate underlying trends in our business and our historical operating performance on a more consistent basis.

The following table reconciles Adjusted EBITDA and Adjusted EBITDA Margin to net (loss)/income, the most directly comparable GAAP financial measure:

	Three Months Ended December 31,		Twelve Months Ended December 31,

Diluted	58,240,850	58,329,428	57,918,005	58,329,428

(1) As the Company completed its IPO on October 28, 2021, we do not believe adjusted net income per share is a meaningful metric for periods prior to this date. The 2021 periods only include amounts from October 28, 2021 to December 31, 2021, after the Company completed its IPO.

(2) Diluted Adjusted Net Income Per Share is computed by dividing adjusted net income by the weighted-average number of shares of common stock outstanding adjusted for the dilutive effect of all potential shares of common stock.
